### **DETAILED ACTION**

This responds to Applicant's Arguments/Remarks filed 02/16/2010. Claim 37 has been amended. Claims 20-42 are pending in this Application.

#### ***Response to Arguments***

1. Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

#### ***Allowable Subject Matter***

2. Claims 20-42 are allowed.
3. The following is an examiner's statement of reasons for allowance: Applicant's claimed invention a virtual card gaming system and method comprising a processing unit; a plurality of player screens connected to the processing unit; and a touch sensing unit associated with each player screen, wherein playing cards displayed on each player screen are adapted for graphical manipulation in response to continuous touch movements detected through the associated touch sensing unit, the manipulation comprising a three-dimensional representation so as to partially reveal the each playing cards from a face down representation such that a portion of an underside of the playing card in a face down representation is revealed in an advancing manner corresponding to an advancement of the continuous touch movements is neither anticipated nor rendered obvious by the art of record. The closest art pertaining to the revealing the underside of a three dimensional video representation is that of a method and system

for effectuating a transformation of a video image (U.S. Patent No. 4,860,217 to Sasaki et al). Here there is no suggestion or motivation to manipulate individual items on the display screen. U.S. Patent No. 6,628,310 discloses a system and method for turning over windowed computer screen that are laid over one another. Again there is no motivation or suggestion of revealing the underside of the window just what lies beneath. U.S. Patent No. 1,527,929 was presented of disclosing Applicant's reveal feature but Examiner now agrees with Applicant's interpretation of Simons and withdraws the rejections based on Simons.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
